

Toyota Is 45th Anniversary Sponsor and Inaugural Mentorship Lead

The Dallas/Fort Worth Minority Supplier Development Council is celebrating 45 years of facilitating business connections between our buying entity partners and certified minority-owned businesses.

We are proud to partner with Toyota as the Signature 45th Anniversary Sponsor for this significant year of activities. Toyota, a former Corporation of the Year winner both locally and nationally, provides a strong culture dedicated to diversity, respect for people and our community and continuous improvement.

In addition to being the 45th Signature Sponsor, Toyota is also hosting and conducting the **D/FW MSDC Inaugural Mentoring Program**. This program was announced at ACCESS 2018 Business Expo. Four minority-owned businesses out of more than 45 applications were selected as the first program participants. The mentees will work with assigned Toyota mentors to help them improve operations, develop marketing direction and understand their financial position. Mentees will graduate from the year-long program in July 2018. The inaugural program is intended to provide a foundation to conduct future mentorship programs with other Buying Entity participants.
